

Thank You, Drivers

Thank you guys so much for risking your health to make sure you are putting others first! I bet everyone is so glad all of you guys are continuously coming to pick up the loads of garbage everyday. I am so amazed by all of you, you guys probably just want to be with your families, but you're putting in the time to still do your jobs and help others. What we are all going through right now is horrible, but all of you keep coming in and keeping your spirits up. Thank you it means a lot, keep being safe and keep your spirits high!
