

# Continuous Development Program

The Republic Services Technical Institute offers technical courses taught by WorkforceLinc trainers and classroom-based training provided by our manufacturer partners.

At Republic Services, we value our teams' continued growth by offering a Continuous Development program. Available training develops employees, keeps our employees and customers safe, and improves compliance.

This program is for technicians of all skill levels, supervisors and managers, union and non-union. Travel, lodging and per diem are covered by an employee's business unit; courses are covered by the Technical Institute.

## Courses:

- Hydraulics fundamentals
- Advanced troubleshooting and repair
- Electrical basic theory
- Heavy equipment preventive maintenance
- Hauling equipment preventive maintenance
- CNG theory and basics
- HVAC theory and troubleshooting with ASE 609 certification
- Braking systems, drum and disc with DOT brake inspector certifications certificate
- Computer diagnosis & REGEN with Norgon familiarization
- Manufacturer training provided by Heil, McNeilus, Allison Weller, MACK, MGM Brakes and Peterbilt
